

Evellon

- Stagerider -

This Stagerider represents an optimal stage situation for us. If something is not feasible, please contact us via the contact below.

Travel Party:

Vocals	Nele Messerschmidt
Keyboards	Pascal Pannen
E/A-Gitarre	Gilbert Gelsdorf
Drums	Martin „Maddin“ Klüners
Bass	Philipp „Phil“ Kohout

Depending on agreement:

FOH	Beray Habip
Light	Andree Jörris

Catering:

If catering is part of the concert contract, we need the following meals:

3 x omnivore

2 x vegetarian

1 x vegan (if our FOH man is part of our travel party)

1 x omnivore (If our Light engineer is part of our travel party)

Equipment:

We bring:

- Depending on agreement: An own FOH desk (Midas M32)
- Our own in-ear rack / own stage box (Behringer X32 Rack)
- Own microphones
- Own drum set (Depending on agreement)

We need:

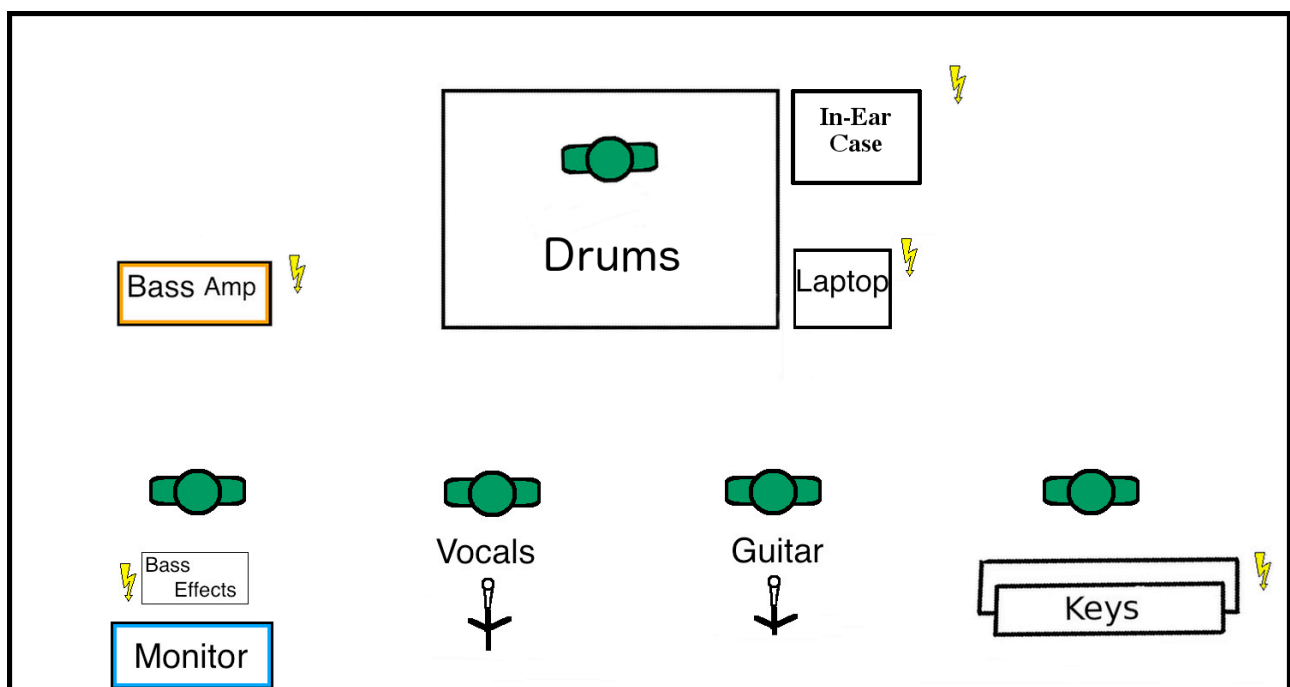

- 1x CAT cable (Cat5e or Cat7) from stage to FOH
- If it should be longer than 80 meters, notify in advance
- A dry backstage area with direct access to the stage
 - 2 x mic stands with boom arms (for backing vocals and antenna)
 - Bass Cabinet (4 ohms)

Wireless Systems:

We have the following wireless systems, which frequencies have to be kept free during our soundcheck and concert!:

- Vocal Mic (Audix RAD 360): **662 MHz**
- In-Ear 1: **863 MHz**
- In-Ear 2: **864 MHz**

Stage setup:

Monitoring:

Since we have an In-Ear Rack, we take care of our monitoring, except for our bassist. He continues to rely on classic monitoring and needs a floor wedge. Its aux output comes from our In-Ear Rack. Responsible for his monitor mix is our FOH engineer.

Channellist: (The order may still change until the concert, but since we're on our own stagebox, it will not affect your patching anyway)

Nr	Signal	Mikros	Input	Wo
1	Bass Drum	TG D71	Local 01	Splitter/Front
2	Snare Top	e904	Local 02	Splitter/Front
